SUPPORTS HEALTHY BRAIN FUNCTION*

CereReNu

Nourish your brain, enjoy the memory-boosting benefits.

CereReNu is exclusively formulated to promote healthy brain metabolism and optimal functioning of its almost 200 billion cells.

Formulated with eight brain boosters which help promote brain energy, support important neurons and defend against free radical damage to the brain. Together they help power up mental sharpness and cognition so you can think fast on your feet again.

"Unlock" the brain creativity and cognitive drive.

Bacopa is a popular herb in Ayurvedic medicine that has been used in India for over three centuries. The bacopa herb is commonly known as a nootropic herb, which means that it can help repair damaged neurons and improve brain function. Nootropics are usually said to have the ability to "unlock" the brain when it comes to creativity and cognitive drive. Knowing Neurons, Hacking your Brain with Smart Drugs

The Bacopa herb falls under the category of the "Medhya Rasayana" — herbs that have the ability to improve memory and intellect. Kashmira Gohil, Jagruti Patel, International Journal of Green Pharmacy, A Review on Bacopa Monniera: Current Research and Future Prospects

**Better Brain
Better Body
Better Life**

Unique phospholipid formula helps conserve cognitive function as we age.

CereReNu provides Phosphatidyl Serine (PS) – a nutrient that is a natural building block for cell membranes and a powerful cortisol modulating agent. In the brain, PS supports the cell membrane function, mitochondrial function and assists in the formation of the synapses that are the connectors between nerve cells. PS supports healthy cognitive function in people with age related cognitive decline.

Promotes oxygen flow to the brain.

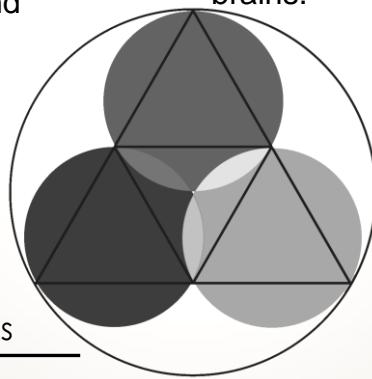

Your brain requires about 20 percent of your body's total oxygen and blood sugar resources – or even more when your brain is in “overdrive”.

CereReNu has two ingredients – Bacopa Leaf and Ginkgo Biloba Extract – to support healthy blood flow. Other ingredients help support the blood vessel walls and the brain's enzyme systems, neurotransmitter systems, and overall connectivity.

Supplemental Facts:

Serving size: 1 capsule

Servings per container – 90 capsules

	Amount Per Serving	% Daily Value
Protease 6.0 (15,000HUT)	30mg	*
Proprietary Cognitive Support Blend	376 mg	*
Bacopa (leaf) ext. (20% bacosides), Lecithin, Sage (leaf) ext., Gingko Biloba (leaf) 50:1 ext., Phospholipid (from soy) (20% phosphatidyl serine), Ashwagandha (root), Huperzine A (from Huperzine serrate ext.), Acetyl-L-Carnitine.		

* Daily value not established

Recommended Usage: 1 capsule 3 times in a day with food. Higher intakes may be beneficial, as recommended by a nutritionally informed physician.

How soon will I notice a difference from taking CereReNu? Each person is different, but many should experience benefits within 2 or 3 weeks.

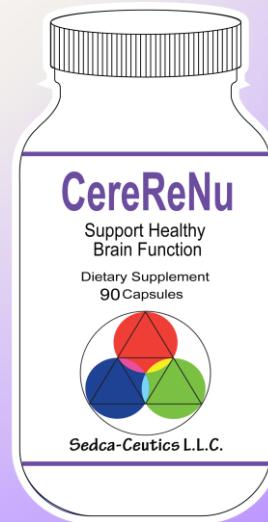

Are there any allergens in CereReNu?

CereReNu contains no milk/dairy, gluten, wheat, soy, yeast, eggs, corn, sugars or artificial colors or flavoring. Some ingredients in CereReNu are derived from soy, but they do not contain the soy protein (amino acid sequence).

Can CereReNu support brain health in college age adults? Yes. CereReNu is designed for young, middle aged and elderly brains.

Are There Any Contradictions For Use?

Avoid any ingredient(s) you may be allergic to. Consult with your practitioner if you are pregnant, lactating, on medication or have a health condition.

Other Ingredients: Vegetable cellulose, Microcrystalline cellulose, Magnesium stearate, Silica and water.
